

Times Square

Marianne Faithfull

In a tough part of the city
looking from some fast talk
Watch 'Don't walk' to 'Walk'
Easy when you're dreaming
 Standing in a circle,
 Staring at the movies
Laughing at the wrong time.
 alcohol can take me there.
 I'd take a shot a minute
And be there by the hour. Take a walk around Times Square
 With a pistol in my suitcase
 And my eyes on the TV.
In a car taking a back seat
 Staring out the window
 Thinking about danger.
Playing in a wrong world
Fighting — but I'm not free.
 Talking on the telephone
Talking about you and me. Jesus Christ could take me here
 I'd fall down on my knees,
Have no questions to His answers. Take a walk around Times Square
 With a pistol in my suitcase
And my eyes on the TV. Alcohol could take me there.
 I'd take a shot a minute
And be there by the hour.
Take a walk around Times Square
 With a pistol in my suitcase
And my eyes on the TV. And if I die gaining my senses
 Wake up in a hotel
 Staring at the ceiling.
