

# Concrete

[Britt Nicole](#)

We are broken, in the right places  
Heart's been stolen, so many faces  
You came runnin' in  
They all were runnin' out  
You were savin' me  
You coulda saved yourself And when I'm screaming at night  
You're holding me tight  
When I'm down in the ring, you finish the fight  
When I'm pullin' away, you know what to say  
And I know that we'll survive  
Even when we're in too deep  
We're solid like concrete  
The heartbreak is over tonight  
Cause we found each other  
We won't buckle under  
We'll break the edge of the knife  
'Cause you and me are concrete  
You and me are concrete Wrote our names, carved in the pavement  
On the boulevard, everyone can see it  
And through the footsteps, the cracks and the weights  
And all of the stuff in between  
Yeah it's still there  
And we're still here  
And when I'm screaming at night  
You're holding me tight  
When I'm down in the ring, you finish the fight  
When I'm pullin' away, you know what to say  
And I know that we'll survive Even when we're in too deep  
We're solid like concrete  
The heartbreak is over tonight  
'Cause we found each other  
We won't buckle under  
We'll break the edge of the knife  
Cause you and me are concrete  
You and me are concrete Even if the demons try and get you  
I'll be standing there right by your side  
Everytime (everytime)  
There's no mistake that you can make  
That's ever gonna make me walk away Even when we're in too deep  
We're solid like concrete  
The heartbreak is over tonight, tonight  
Cause we found each other

We won't buckle under  
We'll break the edge of the knife  
'Cause you and me are concrete  
You and me are concreteConcrete  
Concrete  
Concrete
