## **On My Way (Supasound Club Mix)**

## **Charlie Brown**

Move in circles at night You've given up the fight Like the streets that you're always walking on You died inside And you don't know why So you try to turn the light onBut stand up and never say never 'Cause this life is gonna get better Take a breath, shake it off and say I'm on my wayYou been down and feel so fed up When they tell you, you might not get up Might not be on top of the world but hey Here's what you say You might work but I work harder You might fight but I fight smarter Might not be on the top of the world but hey I'm on my way You might fly but I fly higher You're so hot but I'm on fire Might not be on top of the world but hey I'm on my way ay I'm on my way ay I'm on my way ay I'm on my way I'm on my wayAll alone in your bed You tried when you said What you said Yeah you poured your heart out But nothing's changed Still a picture in a frame And you try but you just can't break out, noBut stand up and never say never 'Cause this life is gonna get better Take a breath, shake it off and say I'm on my wayYou been down and feel so fed up When they tell you, you might not get up Might not be on top of the world but hey Here's what you sayYou might work but I work harder You might fight but I fight smarter Might not be on the top of the world but hey I'm on my way You might fly but I fly higher You're so hot but I'm on fire Might not be on top of the world but hey

I'm on my waySo stand up and never say never 'Cause this life is gonna get better Take a breath, shake it off and say I'm on my wayYou might work but I work harder You might fight but I fight smarter Might not be on the top of the world but hey I'm on my wayYou might fly but I fly higher You're so hot but I'm on fire Might not be on top of the world but hey I'm on my way ay I'm on my way I'm on my way
