

Scotty

Pure Bathing Culture

Now you move so smooth
It's all new inside you.
Spins that rhythm you let push through. Rows to rows, mile to mile
Gaze is fixed, eyes on fire.
Something secret sleeps deep inside. It's your natural place you stay
Scotty's got his way, yeah.
And you laugh in their faces
You say, "Scotty's got to stay," yeah.
They blink once, they blink twice
Seen it all, hearts like ice
Something secret sleeps deep within you. It's your natural place you stay
Scotty's got his way, yeah.
And you laugh in their faces
you say, "Scotty's got to stay," yeah. It's your natural place
And you laugh in their faces.
It's your natural place you stay
Scotty's got his way, yeah.
You laugh in their faces you say...
If I could fly, I'd pick you up
I'd take you into the night
And show you love If I could fly, I'd pick you up
I'd take you into the night
And show you love
