

Higher Place (feat. Ne-Yo) [Angemi Extended Mix]

Dimitri Vegas & Like Mike

Show me to a higher place
Take me to outer space
I want you to be my friend
We'll make it till the world ends Show me to a higher place
Take me to outer space
I want you to be my friend
We'll make it till the world ends Don't give me love
Governed by life
Limited by
These worldly heights
I want a love
That the universe
Can never stop
Can never hurt
I want a love that will last
After this world is our past
A love that no time could erase
A love in a higher place
Show me to a higher place
Take me to outer space
I want you to be my friend
We'll make it till the world ends Show me to a higher place
Take me to outer space
I want you to be my friend
We'll make it till the world ends Don't sell me short
(Don't sell me short)
On unconditional
(On unconditional)
I want a love
Beyond what we all know
Whooooooooo
I want a love that will last
After this world is our past
A love that no time could erase
A love in a higher place
Show me to a higher place
Take me to outer space
I want you to be my friend
We'll make it till the world ends Show me to a higher place
Take me to outer space

I want you to be my friend
We'll make it till the world ends
