

# Anyway

Tori Kelly

If I said I'm difficult sometimes  
Say whatever comes to my mind  
Would you stay with me anyway? If you knew I made a lot of noise  
Say whatever just to make my point  
Would you stay with me anyway? Well this is the only Tori that I know how to be  
Sorry if that don't fit your reality  
I'm giving one hundred percent of me  
So take it or leave  
Whether you're in or out This is what I'm about  
Because I'm up  
I'm down  
I'm left  
I'm right  
Imma be myself all day and night  
Whether you leave or stay  
This is me any anyway  
I'll do my own thing and that's alright  
It's the way I choose to live my life  
Whether you leave or stay  
This is me any anyway  
Woah oh oh oh Oh oh oh oh  
This is me any anyway If I said I'm gonna make you wait  
I don't mean it but I'm always late  
Would you stay with me anyway?  
If I see you getting out of line  
Best believe I'm gonna handle mine  
Would you stay with me anyway? Well this is the only Tori that I know how to be  
Sorry if that don't fit your reality I'm giving one hundred percent of me  
So take it or leave  
Whether you're in or out  
This is what I'm about Because I'm up  
I'm down  
I'm left  
I'm right  
Imma be myself all day and night  
Whether you leave or stay  
This is me any anyway  
I'll do my own thing and that's alright  
It's the way I choose to live my life  
Whether you leave or stay  
This is me any anyway Woah oh oh oh  
Oh oh oh oh

This is me any anyway  
Woah oh oh oh  
Oh oh oh oh  
This is me any anyway Where to begin?  
I'm too full in my skin  
I don't smoke, I drink  
You act like it's a sin  
But while you're out partyin' with men and women who be pretendin'  
I'm cool with being different while you hipsters blend in My heads full of dreams  
And I feel like livin' them  
While you're messin' with perfection  
Inspiration's what I'm chasin'  
And take it or leave it babe  
I'm not gonna change If you don't understand I don't need you anyway I'm the only Tori that I  
know how to be  
Sorry if that don't fit your reality  
I'm giving one hundred percent of me  
So take it or leave  
Whether you're in or out  
This is what I'm about Because I'm up  
I'm down  
I'm left  
I'm right  
Imma be myself all day and night  
Whether you leave or stay  
This is me any anyway  
I'll do my own thing and that's alright  
It's the way I choose to live my life  
Whether you leave or stay  
This is me any anyway  
Woah oh oh oh  
Oh oh oh oh  
This is me any anyway  
Woah oh oh oh  
Oh oh oh oh  
This is me any anyway
