

# Cake

## Cali Rodi

Verse 1:

You sugarcoat our situation  
Got me waiting anticipation  
When you gonna call, when you gonna call me? No double dipping, you got it twisted  
I'm not the kinda girl that's gonna get addicted to vanilla

Pre Chorus:  
You can't have it both ways  
Boy it's not your birthday  
So get out, get out

Chorus:

You can't have your cake and eat it too  
You can't have your cake and eat it too  
Ain't no secret you got a weakness for my sweetness  
But you can't have your cake and eat it too  
Verse 2:  
Those other girls taste nothing like me  
Eat your heart out just like candy  
You're not gonna call, but I know you want me

Pre Chorus:  
You can't have it both ways  
Boy it's not your birthday  
So get out, get out

Chorus:

You can't have your cake and eat it too  
You can't have your cake and eat it too  
Ain't no secret you got a weakness for my sweetness  
But you can't have your cake and eat it too

Bridge:  
I'm gonna blow out all your candles x 2
