

Waste My Time

Saint Asonia

Hold onto me like we're the only one's that see
The sky above us falling down
And breathe in my ear
Like we're the only one's that hear
The mountains crashing down I have wasted most of my life playing games that I knew I'd lose
Let me sing to you just sit here don't move
I just want to waste some time with you So take my hand, I don't understand
How they kept us apart for so long
Smile so I can see that it's really you in front of me
Cause that's still just so hard to believe
I have wasted most of my life playing games that I knew I'd lose
Let me sing to you just sit here don't move
I just want to waste some time with you Forcing back the tears
Over all the years
Boarding up the door
Throwing my hope to the floor
I could not forget
Now it all makes sense
That your here with me
And I never, never want to leave
I would have wasted most of my life never even knowing you
Now you sing to me and I still don't believe
That you want to waste some time with me
Let me sing to you, just sit here don't move
I just want to waste some time with you
Now you sing to me and I still don't believe
That you want to waste your time with me
