

# Why Can't We Be Friends?

## The Academic

Don't leave me here  
Especially not with her  
You've heard of people getting lost Yeah we don't even talk  
Don't drink my fear  
When I've had too much  
You've heard of people getting lost  
I wanna see you in the dark And it falls and it breaks and it turns into something new I say don't  
let me go  
And you say why can't we be friends  
And all night I watch it burn  
And you say why can't we be friends  
And talk to me and tell me how this one goes  
I need a taxi  
This world is pointless  
If you're not here  
This world is pointless  
If we're not self-destructing love And it falls and it breaks and it turns into something new  
And it falls and it breaks and it turns into something I say don't let me go  
And you say why can't we be friends  
And all night I watch it burn  
And you say why can't we be friends  
And talk to me and tell me how this one goes  
I need a taxi (Woo) And it falls and it breaks and it turns into something new  
And it falls and it breaks and it turns into something  
I say don't let me go  
And you say why can't we be friends  
And all night I watch it burn  
And you say why can't we be friends  
And talk to me and tell me how this one goes  
I need a taxi
