## **Heart of Chambers**

## **Beach House**

In your heart of chambers Where you sit With your picture books And your ancient wit In that nook I found you So old and tired Would you be the one to carry me? I'd like to be someone You could finally learn to love again Made our iron bed side Cold as graves So we stoke the organs That may comfort grace And they conjured spirits To make you smile Would you be my long time baby?I'd like to be someone You could finally learn to Breathe At our sides Let's take the time To mend these smiles To get them Could make it home Love is surprises Live our own lives In our beds we're the lucky ones Filled with the sun In our beds we're the lucky ones Fill us with the sun Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
