

BP

Electro Hippies

With a finger in every single dirty pie,
its only natural that theyd want to hide,
behind a glossy image of a company true and fair,
but your tissue paper facade is starting to tear. Float the company to rae in even more cash,
having a government backing helps to avoid a backlash,
in cases anyone finds out where the money goes,
but weve got you sussed and that masks just for show. Money grabbers, vivisectors, weapon
makers, land stealers,
evictor of native, jungle killers, support apartheid - British Profiteers.
