

I Disappear

The Faint

I disappear, I lost control,
My body's movin' on its own,
I watch myself walk away,
A foreign spirit took my place. And he's there, inside the door
So my exits is riding my pulse,
A burst of black, A breath of smoke
I disappear, I lost control
I disappear
I disappear, I lost control
My body's movin' on its own,
I watch myself walk away,
A foreign spirit took my place. I disappear
How could I resist, it's all I want,
And now I guess I got it.
Why'd it happen, I don't know
Hope this doesn't last forever I disappear
