

# Surrender

## Angels & Airwaves

There is a crowd in here, that fooled themselves;  
they brought their friends, and they made their hell.  
They fake their grin, it'll only sell.  
I took it all in, but what do I know? There are a few in here, that hurt themselves;  
they kick, and beg, they have a dried-up will.  
They call for help, and you know them well.  
Are you aware of what I know? I, I will not surrender  
No I, I will not surrender  
No I, I will not surrender  
No I, I will not surrender When God falls fast asleep  
The kids still dance in city streets  
From the white house lawn to the middle east  
And all around I'm just saying that this time I feel it now  
When God falls fast asleep  
The kids still move to a steady beat  
Even if its bombs landing at their feet  
Or all around I'm just saying that this time I feel it now There is a place to hide  
Its in our minds  
Its in the dark  
Its well known  
That we have a fragile heart  
Its deep inside  
It has a sound that you can follow  
You feel like you hit a wall  
But you survived  
And it was hard for you to swallow  
Ive been to that place before  
In spite of luck  
When you await a new tomorrow  
I, I will not surrender  
No I, I will not surrender  
No I, I will not surrender  
No I, I will not surrender When God falls fast asleep  
The kids still dance in city streets  
From the white house lawn to the Middle East  
And all around I'm just saying that this time I feel it now When God falls fast asleep  
The kids still move to a steady beat  
Even if its bombs landing at their feet  
Or all around I'm just saying that this time I feel it now When God falls fast asleep  
The kids still dance in city streets  
From the white house lawn to the Middle East  
And all around I'm just saying that this time I feel it now When God falls fast asleep

The kids still move to a steady beat  
Even if its bombs landing at their feet  
Or all around I'm just saying that this time I feel it now I feel it now  
This time I feel it now  
I feel it now  
This time I feel it now Oh oh oh oh oh  
Yea ah oh oh oh oh oh  
Yea ah oh oh oh oh oh  
Yea ah oh oh oh oh oh  
(This time I feel it now)
