

# Already Gone (feat. Brave & Lido)

## Alison Wonderland

I've been nursing a broken heart  
It took so long for me to adjust  
So long, so long Two months, laid out  
Something breaks my sleep  
She showed up at my door  
Saying let's not make this hard  
But you are You're already gone  
Please don't waste my time  
You took too long  
Love already died  
You're already gone  
Please don't waste my time  
You took too long  
Love already died  
I remember when you told me  
You didn't want me and that you gotta go You're already gone  
Now you tell me that you want me  
But I'm sorry, look girl, I gotta go  
I'm already gone  
I've been vibing, life goes on  
The places and faces I found a world away from your bullshit  
Still you manipulate things  
You already broke my heart  
Why make it so damn hard to move on  
You're already gone  
Please don't waste my time  
You took too long  
Love already died  
You're already gone  
Please don't waste my time  
You took too long  
Love already died  
You're already gone  
Please don't waste my time  
You took too long  
Love already died  
You're already gone  
Please don't waste my time  
You took too long  
Love already died
