

A.C.'s Alien Nation

Aaron Carter

A.C., A.C.
Put your hands up
Put your hands up
Come on now
Shoulda known something was up when I got up
Something felt funny to me from the get up
Jumped up out of the bed with my head up
Guess who was staring at me? An ET or an alien
But he said his name was Steve
And he didn't look like what I thought he would be
He said "Aaron, will you help me please
Get your space suit, now come with me"
So we hopped up, in the space truck
It was all combed out with the system up
And I thought we were going to Mars, we made a left at the dipper
Never figured that we'd be here with a space majiggy
We got there and I read a sign, it said
"Welcome A.C., it's about time
Can you show us? Can you help us?
To dance tonight? 'Cause we have no rhythm
And we're running outta time"
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
Everyone is a cosmic freak and we only have one mission
Gotta move as one in A.C.'s Alien Nation
Listen up, here's what you got to do
You take one step up, don't try to take two
Make sure that you bump your fists like this
Nod like this and rock like this
'Cause everybody gotta learn this way
To a be together, stay together, know we gonna innovate
Moonwalk, star drop, a universal big top
Circus notice and you gotta know this
It really doesn't matter, if you're short or tall
Green or blue, fat or bald
'Cause I came with a groove and I'm proving it all
And around these parts we don't take no show
With the unity soon to be in the streets
You can see with your own eyes, how far we've come
'Cause we didn't have rhythm, now we've got some
It's just another day in the A.C. Nation
Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation
Everyone is a cosmic freak and we only have one mission
Gotta move as one in A.C.'s Alien Nation
You say you wanna dance
Well, here's your chance
Uh, uh, break it down, we gonna break it on down
Right, right to left
Right, right to left
Now, up and down and side to side
C'mon, what? We're gonna bounce like this
What? What? We gonna pump them fists, what?
A.C. baby, A.C. baby, that's where we at
C'mon, here we go, drop it down
4-3-2-1
Drop it down
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
Everyone is a cosmic freak and we only have one mission
Gotta move as one in A.C.'s Alien Nation
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
