

Going Home (with Emma Hewitt)

Cosmic Gate

We've been searching for so long
to find the place where we could belong
we always dreamed of better things to come
and turned our faces towards the sun
we follow the light that we see in the dark
and keep on going till it catches spark
I believe there's a change to come
we'll never know if we never run
And all the signs are surfacing now again on the winding road
Don't turn around we're going one way
the time is right we're going home
and now you're in my mind always
forever young and forever on
There's a distance to go from here
it was never the weight of the world we feared
I'd be with you and right beside
ever wrong and through the night
And all the signs are surfacing now again on your winding
road
Don't turn around we're going one way
the time is right we're going home
and now you're in my mind always
forever young and forever on
Don't turn around we're going one way
the time is right we're going home
and now you're in my mind always
forever young and forever on
Don't turn around we're going one way
the time is right we're going home
and now you're in my mind always
forever young and forever on
