

You're My Star

Tank

Hey loose girl
You're my prize possession ever known
I would rather die than let you go girl
Can't describe this feeling in my soul, oh aah
And I can't help but stare you got that glowHey lemme get a little bit closer
I really wanna be Mr. Your love
The feeling that you give me is so goodYou're my star
This is dedicated to my star
I'm so infatuated, who you are?
My star, my star, my star
A problem not to far
Only you, you're my star
I get chills, every time I think about your smile
My heart skips a beat, I'm thinking 'bout it now
Can I be a fool? If I don't keep you around
Cause baby girl you light up my world, ooo
My loveHey lemme get a little bit closer
I really wanna be Mr. Your love
The feeling that you give me is so goodYou're my star
This is dedicated to my star
I'm so infatuated, who you are?
My star, my star, my star
A problem not to far
Only you are my star
I Only need you
(Need you)
Got curves like the moon
(Moon, moon)
But you're hotter than the sun
Baby girl, you're my one
So I only need you,
More curves than the moon
But you're hotter than the sun
Baby, you're my oneYou're my star
This is dedicated to my star
I'm so infatuated, who you are?
My star, my star, my star
I'm probably not to far
Only you are my starYou know you a star
Baby know, you know you a star
You know you a star
Baby know, you know you a star

You know you a star
