

# Paralysed

## Ride

Catch me, in another dream, I'm pulled away  
Hold me, gently take me through another day  
However hard I try  
I crawl when I should fly  
I wander through my days  
Pulled a million ways  
Help me feel the forces I can't touch, I'm reaching out  
Help me learn, until I know too much, I'm still without  
These circles pulling near  
Hold me in my fear  
And sleeping I can't hide  
I'm paralysed inside  
Paralysed  
Paralysed  
Paralysed  
Paralysed  
Paralysed  
Paralysed  
Paralysed  
Paralysed
