

# Walk You Home

## Super Furry Animals

Tonight, It's just the two of us  
So forget the world for a while  
Open your heart and open your eyes  
I'm right here in front of you. And you look so pretty in your dress  
Though I know I look like a mess,  
I'll do my best to win your heart  
So can I walk you home tonight? Please tell me how you feel  
Cause deep inside I know it's real  
I promise, I will forever be yours  
Darling open up to me, Let me walk you home  
Before its morning, before the sunrise  
Before I go back to reality  
And you go back to your life  
Tell me that you feel the same way too  
Please tell me how you feel  
Cause deep inside I know it's real  
I promise, I will forever be yours  
Darling open up to me, Let me walk you home Even if you'll never be mine  
I'm in love with you, tonight
