

# How Can You Love Me

## Kiiara

Heard you own a new car and a big home (big home)  
Owning everything but your mistakes  
For what, for what, for what?  
Showing off your art and all your new gold (new gold)  
Acting like Usain Bolt  
So what, so what, so what? Baby, tell me where your friends now?  
Baby, that's you on the way down  
You know I be there to catch ya  
'Cause I'm faded with my arms out  
But you won't remember when I  
Call on you when I break  
How can you love me?  
How can you love me?  
How can you love me?  
How can you love me?  
How can you love me?  
How can you love me when you don't have a heart?  
When you don't have a heart  
When you don't have a heart  
When you don't have a heart  
When you don't have a heart Standing in the foyer in the silence (silence)  
Penthouse feel like an asylum  
Alone, alone, alone  
Riding off my love without a license (license)  
That ain't feed you falling from your high risk  
As you watch me go  
Baby, tell me where your friends now?  
Baby, that's you on the way down  
You know I be there to catch ya  
'Cause I'm faded with my arms out  
But you won't remember when I  
Call on you when I break How can you love me?  
How can you love me?  
How can you love me?  
How can you love me?  
How can you love me?  
How can you love me  
When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart? Heart out of reflections

Your fake friends, they all come and go  
Come and go  
Big nights and stay-at-homes may crumble  
But my love will grow  
My love will grow When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart? When you don't have a heart?  
When you don't have a heart?  
When you don't have a heart?
