

Dangerous

Cascada

Don't know anything about you
So close, just a touch away
Your Love hits, me like no other They say I'm a true believer i know
Something's taking over no I wanna run but i don't know how
You just crossed my border now
Just a kiss away Gimme a break, I'm melting away You're so Dangerous
Or is it too late?

Gotta know what's on your mind I'm out of control
'Cause you want it all You're so dangerous
My biggest mistake I'm blinded by your light Dangerous
(I'm out of control)
(Dangerous)

Don't you push to the limit
'Cause you know I'm
hungry for your touch
No doubt, I wanna be your lover
(wanna be your lover)
They say just a pretender i know
Something's taking, over no
I wanna run but i don't know how
You've just crossed my broder now
We're standing face to face
Gimme a break, I'm melting away
You're so Dangerous
Or is it too late?

Gotta know what's on your mind
I'm out of control
'Cause you want it all
You're so dangerous
My biggest mistake
I'm blinded by your light Dangerous
(Dangerous)

I'm out of control
'Cause you want it all
You're so dangerous
My biggest mistake
I'm blinded by your light Dangerous
