

# Shine Forever

## Gamma Ray

Give me peace and absolution  
Take me up into the light  
Sacrifice and self-destruction  
Bodies burning bright To die for revelation  
Decimate the enemy  
Holy war into damnation  
Blood is on the streets But when the knife is cutting deep  
And you're crying in your sleep  
Then it's time to come alive And rise up, shine forever  
You'll see the light on your road  
Yeah, oh yeah  
Watch your step they're right behind you  
Better move without a sound  
Damn the day they're gonna find you  
Grind you to the ground And the knife is cutting deep  
And in agony you creep  
And it's time to stay alive And rise up, shine forever  
You'll see the light on your road  
Rise up, it's now or never  
You shall see the light again on your road, yeah Standing and watching the fire  
Don't wanna stand in the row  
Watching the flames getting higher  
Look at yourself, regain your self-control Take a look around you  
You're not alone  
So stand up and rise  
Rise up, shine forever  
You will see the light on your road  
Rise up, shine forever  
And your star will rise again  
It shall rise
