## #Flashback

## The Baseballs

Half awake on kitchen floor Not seeing straight, but this ain't my place Open up the bathroom door I see something ain't right What happened last night? Ooooh something ain't right What happened last night? Ooooh something ain't right I'm struck by the daylight No, no, no - it started with a sixpack Now I got a flashback Stole the show I didn't see the red flag Someone help me recapFlashback, flashback Just got a flashback, flashback No, no, no - flashback, flashbackCan't get my memory clear I'm feeling sick, who is this chick Sleeping in a puddle of beer These nights have to end Never again Ooooh never again No never again Ooooh I guess once again My head's in a spin No, no, no - it started with a sixpack Now I got a flashback Stole the show I didn't see the red flag Someone help me recapFlashback, flashback Just got a flashback, flashback No, no, no - flashback, flashback
