

Untrue

Coal Chamber

where have you been?
i've been here
waiting anticipating
coping with tears
where have you been?
you've been untrue
i've seen it before and i see it again
its quite clear now
your phone rang all night
i waited here
waiting anticipating coping with fear
where have you been? you've been untrue
i've seen it before and i see it again
you can't stop me you know who i am
this justifies now just what i am
you crucify me won't lay by my side
and now you'll need me until i die
guess what i'm dead
you've been untrue
i've seen it before and i see it again
you can't stop me you know who i am
this justifies now just what i am
you crucify me won't lay by my side
and now you'll need me until i die
i'm dead
