Dumb Reminders

No Use for a Name

I heard the message then I rang it off the I didn't get you til 1 am Who was wrong and who was right? And this distance caused a fight Now I'm ready to give inHonestly, I'd give anything to be with you right nowThis town is full of dumb reminders "Having a good time" can't you tell? Hang up the phone and then I come back down Miss you, I hope you're doing well I'm used to waiting What's a voice without a face? I think of dying without you here So I drink myself to sleep And then I hide beneath a sheet And I try to disappearBut I get up every single time Cuz you keep me aliveThis town is full of dumb reminders How far I am from you in miles If I could get what time has taken down Maybe then I could see you... This town is full of dumb reminders "Having a good time" can't you tell? Hang up the phone and then I come back down Miss you, I hope you're doing Miss you, I hope you're doing Miss you, I hope you're doing well.
