

# Navigate

## Band of Skulls

Everybody's back in town  
Give me the armor and let me prepare  
It can be easy or difficult to steer your heart and breath  
Death cheats death it's clear Time and tide wait for no man  
Slowly realize as fast as you can  
Thought I saw a glimpse of how you were at five  
Ain't it strange how these things take you by surprise We are drifting on a deep sea  
And I can never get the stars like my father  
Oh we're drifting out to sea into deep water  
If we're scared, it puts us under  
The more you talk, the less you mean  
You told me that when I was just 17  
When it sinks in you will not always be here  
Funny how all your small worries disappear We are drifting on the deep sea And I could never  
get the stars like my father  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
If we're scared it puts us under If you're thinking what you know is true then tell them  
Let them know this  
If your turn goes, ask the question  
Would you tell them, know you're whole dear  
Ooo ---oooo  
We are drifting on the deep sea  
And I can never get the stars like my father  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water  
Oh we're drifting out to sea into deep water
