## Manic Street Preachers

For you my dear sister  
Holding onto me forever  
Disco dancing with the rapists  
Your only crime is silence Can't work at this anymore  
Can't move I want to stay at home  
Tied up to all these crutches  
Never far from your hands Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Can't speak, can't think, won't talk, won't walk  
Doctors tell me that I'm cynical  
I tell them that it must be chemical  
So what am I doing girl  
Cry into my drink I disappear Eyes for teeth grating over me  
Bring down the shadows of my mind  
Sleep and breathe under our sheets  
Inhale the anxiety in-between, in-between, in-between, in-between Tsunami tsunami came  
washing over me  
Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Through September under the weather In-between, in-between, in-between, in-between  
Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Tsunami tsunami came washing over me  
Take the GI's I will have the spies
