

# Raindrops (feat. Kerli)

## SNBRN

Like raindrops from the desert sky  
For you I'll be waiting  
Like seeing stars and endless nights  
For you I'll be waiting  
It's like I can breathe  
Finally  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together  
Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together  
Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together  
Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?  
Like raindrops from the desert sky  
For you I'll be waiting  
With your touch I come alive  
For you I'll be waiting  
It's like I can breathe  
Finally  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together

Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together  
Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?  
Won't you take me over?  
Come a little bit closer  
A little bit closer  
And wake up together  
Bring me up from the under  
A little bit closer  
A little bit closer  
Can we stay at this forever?
