

Know You Better

Mileo

Tell you what, tell you what, tell you what I want in
I can see, I can see just how this begins
you don't want, what you need, we say never again
Once you're in, you are in, let it go Take me to the place that, the place that you want
I could be the one that, the one that you want
let me fall in love from the head to her floor
Oh, and I think, I think we could, I think we could I think we could, I think we could get back
together
I know you more, I know you more, I know you better
I think we could, I think we could get back together
I know you more, I know you more, I know you better
I know you better
I know you better
I know you better And I can lie, I can lie, say it won't be the night
so tell me that, tell me that, that I'm reading your mind
And we don't want, what will be, what we can't ignore
Once you're in, you are in, let it go Take me to the place that, the place that you want
I could be the one that, the one that you want
let me fall in love from the head to her floor
Oh, and I think, I think we could, I think we could I think we could, I think we could get back
together
I know you more, I know you more, I know you better
I think we could, I think we could get back together
I know you more, I know you more, I know you better
I know you better I know you better
I know you better
Take me to the place that, the place that you want
I could be the one that, the one that you want
let me fall in love from the head to her floor
Oh, and I think, I think we could, I think we could I think we could, I think we could get back
together
I know you more, I know you more, I know you better
I think we could, I think we could get back together
I know you more, I know you more, I know you better
I know you better I know you better
I know you better
I know you better
I know you better
