

Company

Trey Songz

I'm all alone in this big old house
Think I'm 'bout to watch a movie, all my friends went out
And the pool's feeling good, it's just the right temp
Don't remember the last time I even got it, I think what I need is Company to comfort me, you
call at the right time
Fun for you, it's fun for me, we are such a good time And I wanna see you tonight, it's been a
long time
I'm feeling lonely tonight, come and get me right
She said "Okay babe I'll be on my way"
Ask me can her home girl come
We gon' have a lot of fun here
Just call me when you're comin
Got nothin else to do, just waitin for you
Just waitin for you
Think I'mma go get myself cleaned up
I'm finna hop up out the shower, feeling real fresh, fresh, real fresh
I'mma chill, I'mma chill, right up to the very second you get here
And let you know how I feel as soon as you walk in, I need your Company to comfort me, you
call at the right time
Fun for you, it's fun for me, we are such a good time And I wanna see you tonight, it's been a
long time
I'm feeling lonely tonight, come and get it right
She said "Okay babe I'll be on my way"
Ask me can her home girl come
We gon' have a lot of fun here
Just call me when you're comin
Got nothin else to do, just waitin for you Think, Think, Think I'm 'bout to make myself a drink,
thinking how we did it on the sink
Think I'm 'bout to roll myself a joint, I could roll some mo' up if you want, that's if you want
I'm faded now I'm sittin on the couch, I'll tell you what else I'm thinking 'bout
I'm thinking 'bout how I'mma hit it every kind of way, call me when you're 5 minutes away
Wanna see you tonight,
I'm feeling lonely tonight,
She said "Okay babe I'll be on my way"
You can bring your friend, as soon as you walk in
We gon' have a lot of fun here
Just call me when you're comin
Got nothin else to do, just waitin for you We gon' have a lot of fun here
Just call me when you're comin
Got nothin else to do, just waitin for you
just waitin for you, just waitin for you, you, you

just waitin for you, just waitin for you, just waitin for you, you, you, just waitin for you
