

Today

Sammy Johnson

When I wake up in the morning
You're the first thing on my mind
Every second every hour girl you're taking up my time
Oh there is no other girl who makes me feel quite like you do
And I just want to take a time
To let you know its always been you
Girl you and me we have a little chemistry
Don't want to let it go nowhere
Because your love is here with me to stay
So is this love (so is this love)
So is this love (so is this love)
Is this love that im feeling today?
Don't make me wait
Don't make we wait
Is this love that im feeling today?
(Oh yeah yeah hey)
Oh there is no escaping another love I have for you
Even if I try to run i'll be running right back to you
You see I could search a lifetime to find that one
But watch me when i'll be searching when you are that one
I guess that I can say im officially hooked on you
Girl you and me we have a little chemistry
Don't want to let it go nowhere
Because your love is here with me
So is this love
So is this love (so is this love)
Is this love that im feeling today
Don't make me wait
Don't make we wait
Is this love that im feeling today
I know that we are trying to find (that one)
That one that we can love all night
And im so glad that I got YOUUU YOUUU
Is this love that im feeling today
Don't make me wait
Don't make we wait
Is this love that im feeling today
