

# I'm Not Her

Clara Mae

Been two years, our memories are blurred  
Hadn't heard your voice, no, not a word  
But still they, they talk about the things we were  
They talk about us  
But I don't know the things that you have heard  
She's dancing on your feet  
With our song on repeat  
She painted every role of us  
She's taking off her clothes  
In the bed you kept me warm  
Heard she's everything I never was  
No, I'm not her  
No Never will  
Never gonna move like her, move like  
I'm not her  
No  
Never will  
Never gonna look like her, be like  
I'm not her  
I'm not her  
At least that's what I've heard  
Me, myself, just stumble under glue  
The thing I thought was missing wasn't you  
And now I'm no longer scared to meet the night  
I'm doing alright  
Me, myself, we started something new  
She's dancing on your feet  
With our song on repeat  
She painted every role of us  
She's taking off her clothes  
In the bed you kept me warm  
Heard she's everything I never was  
No, I'm not her  
No  
Never will  
Never gonna move like her, move like  
I'm not her  
No  
Never will  
Never gonna look like her, be like  
I'm not her  
I'm not her  
At least that's what I've heard  
Been told that she's the opposite  
I kinda like the sound of it  
And there's no one like me  
And that makes it easier  
No, I'm not her  
No

Never will  
Never gonna move like her, move like  
I'm not her  
No  
Never will  
Never gonna look like her, be like  
I'm not her  
Say  
I'm not her  
No, I'm not her, oh, and I'll never be  
At least that's what I've heard
