## Volbeat

We thank you people for being around  
Supporting Volbeat with love and hell fire  
Gu'fanden do we care  
You're all our brothers, sisters and our babies  
Going out on the street again with open arms and  
fists  
Sweating out all the whisky tømmermænd  
And the pain that comes with it  
But we know who we are and more  
Protectors of this band - oh oh oh oh  
And we know we're not alone anymore  
We got supporters in this rock 'n' roll band  
The song is for all the ones who's singing out loud  
Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we're making a lot of noise  
We sing it out loud we sing it out proud  
Sacrificing all the things that we had  
Just to do this thing  
Not even money for some glue  
So we hang all the posters up with jam  
But we know who we are and more  
Protectors of this band - oh oh oh oh  
And we know we're not along anymore  
We got supporters in this rock 'n' roll band  
This song is for all the ones who's singing out loud  
Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we make a lot of noise  
We sing it out loud we sing it out proud  
We thank you people for being around  
Supporting Volbeat with love and hell fire  
Gu'fanden do we care  
You're all our brothers and sisters and our babies  
So when you sing this song out loud  
Remember it's for you, for helvede we are proud  
Let's all have a beer you're all our brothers sisters and our babies  
This song is for all the ones  
who's singing out loud  
Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we make a lot of noise

We sing it out loud we sing it out proud
