

Reaching Out

Nero

Reaching out for something to hold
For something to hold...
Reaching out...
For something to hold
For something to hold...Reaching out for something to holdThough it seems I laugh when I
can't find
What I'm searching for
And I still believe that you know
What I'm looking for
Though it seems I laugh when I can't find
What I'm searching for
And I still believe that you know
Reaching out for something to hold
For something to hold...Reaching out for something to hold
For something to hold...Though it seems I laugh when I can't find
What I'm searching for
And I still believe that you know
What I'm looking for
Though it seems I laugh when I can't find
What I'm searching for
And I still believe that you know
Reaching out for something to hold
For something to hold...Reaching out for something to hold
For something to hold...
