

# Let Peace Reign (feat. Etana & Duane Stephenson)

Tarrus Riley

We are confident  
In the victory of good over evil  
Bless...  
Jah presence around us with love and we must all agree  
That it's time to stop pretending we cannot see  
And if we all should close our eyes we would never recognize  
The difference between a touch of a black or a white hand  
So why is there all the fighting across the land?  
To all the people of the word  
Let peace reign  
Tell all the boy and girl  
Let peace reign  
No care how you calling him  
Jah here it's just the same  
No makes sense we fight  
Let us unite  
Let peace reign Stead of no war take a look and  
Stead of the violence take a book and  
Report to history  
Trace up the mystery  
We will... the others  
How they enslave the mind of the mothers  
Tell her that your word is found in your color  
But they never told us we were brothers  
Brothers and sisters  
How do if you this world religion  
It's this really world for killing  
I don't really know my thought differ  
How do we want this world to be?  
It's this our...  
They tried to said us free but we're still slaves
