

# I Will Not Die

Jude

1-2-3-4

It only hurts me when I'm awake  
It seems to die with dreaming  
and there's only so much that i can fake  
when my whole life's careening down  
I will not die It only kills me cause i'm alive  
and living this disaster  
and its all i can do now to survive  
i live to beat my master down  
I will not die  
down i will not die when i'm well, i long to be  
only in love with you  
but i guess i'll never be  
oh and you know its true  
it does not stop that we all die  
i know this trips to slaughter  
but if only i could let me cry  
i feel healing water oh down  
i will not die  
down i will not die  
down i will not die
