

# Transforming

## KSI

How you feeling?  
I'm alright  
Alright, Speak your mind Think that they know me  
They don't know shit about me  
Fuck what they feeling  
I'll be who I wanna be  
Came from the north side  
Dreaming of all that I could be  
I'm for the long ride  
Visions more clearer to see  
So many girls on my mind  
But I don't see you anymore  
Maybe it's cos of my life  
That I don't see you anymore  
Texting you begging for more  
I'll make you rich if you're poor  
I'll buy your favourite decor  
Maybe I'm drunk on the floor  
Maybe I'll slap any prick that is taking the mick  
Bossing the way of my life like I'm Rick  
Smoking and skiing in verbier  
Party my life away  
Tell me my life is the shit  
I know so many that want me to quit  
I did this ting back when nobody knew of it all  
I hit the space of the few where my Idols turned rivals to losing to nothing at all  
On track pro track  
So many jumped on  
My back  
Yeah  
I'm back, payback  
Now you niggas wanna go  
Backtrack I'm  
Transforming  
Clouds and the winds forming  
See them man informing  
They know that I'm transforming Think that they know me  
They don't know shit about me  
Fuck what they feeling  
I'll be who I wanna be  
Came from the north side  
Dreaming of all that I could be

I'm for the long ride  
Visions more clearer to see  
So many girls on my mind  
But I don't see you anymore  
Maybe it's cos of my life  
That I don't see you anymore  
Texting you begging for more  
I'll make you rich if you're poor  
I'll buy your favourite decor  
Maybe I'm drunk on the floor  
Maybe I'll setup the camp and get ready for war  
I'm not the same as you saw me before  
I'm at a stage where they cannot ignore  
My Mentor watching, listening, this thing  
So trigger happy that a leader scared to do anything  
Gotta follow where the people take em but he loses will to do everything  
Cos I  
Did this for my  
Sanity cos I  
Was reaching levels so uncontrollable  
None promotional  
International thoughts  
Travelling to chill with my thoughts  
Simple thing a break from all the worshipping  
They tried to kill me off like Im the Luther King  
But I bounced right back  
Slamming and dunking lebroning I'm like that  
Niggas be stunting when they really bluffing when they say they getting it like that  
I make it look like it's nothing the way that I'm running the kingdom I own  
0 belief from the people I thought were my homies so I did it all on my own  
God bless the Internet  
Place where a person can be a threat  
Showing my family to zero debt  
These are the things that they won't forget and I won't regret cos I'm Transforming  
Clouds and the winds forming  
See them man informing  
They know that I'm transforming Think that they know me  
They don't know shit about me  
Fuck what they feeling  
I'll be who I wanna be  
Came from the north side  
Dreaming of all that I could be  
I'm for the long ride  
Visions more clearer to see  
So many girls on my mind  
But I don't see you anymore  
Maybe it's cos of my life  
That I don't see you anymore  
Texting you begging for more  
I'll make you rich if you're poor

I'll buy your favourite decor  
Maybe I'm drunk on the floor  
Maybe I'm wanting it more
