

# Oh Noel

## I DONT KNOW HOW BUT THEY FOUND ME

hasn't every little christmas wish been sent?  
have sugar plums been dancing in your head?  
i hope the holidays will find you well  
oh noel  
oh noeli met you in december '93  
noel been staying up the block with her mothers family  
for two straight weeks  
we ran through snow  
and kissed beneath the  
mistletoe  
and swore our love in  
secret company  
hasn't every little christmas card been sent?  
has every child been tucked into their bed?  
im hoping that this song will find you well  
oh noel  
oh noela decade passed, and letters all but died  
ten years that saw her folks divorce and best friends suicide  
i'd see her on occasion  
looking pale and petrified  
i'd wave but she would only turn and cry  
the embers in the fireplace are dead  
the late night news reports are being read  
they found you in some dirty cheap motel  
but oh well  
but oh wellnoel  
noel
