

Fight to Win (feat. Cee Lo Green)

Goodie Mob

Fight to win, stand up straight
No debate, pushed by hate
Concentrate, penetrate, generate
Motivate, life by faith
Keep believin, I know the reason
It's the season, now's the time
Keep on dreaming, keep on leading
Keep on fighting! I am fighting for the liberation
Of voices with something to say
Like many before me, for glory
You have to stand in harm's way
I'm no savior, just a soldier
Soldier with an order
I have no choice but to trust the God
Cause it must be done
My only fear is what might happen
If I didn't fight to win
If I lose, then it was worth dying for
If I win, then I only live to fight again
If I lose, then it was worth dying for
If I win, then I only live to fight again
Who are? We are, they are too
Contained by ? Who are? We are, they are too
Contained by ? Should be proud for the courage
The courage to think out loud
You'll find your way to be foolish enough to be playful
And as soon as you see sunlight again
Get up and fight to win!
If I lose, then it was worth dying for
If I win, then I only live to fight again
If I lose, then it was worth dying for
If I win, then I only live to fight again
To your last breath
Never lose sight
?
Fight!
? that you tried everything in life
Fight!
Keep your head up
