

Come On Down

TLC

Ooh yea yea yea yea
If you need a little tenderness
Can't find it nowhere else
If you want a little something sweet
You just come to me
If you're hungry for some love at night
I'll fix you up just right
There's a tender place just down the way
Where you can stay and I'm sayin'
(Come down)
Come on down
Where the water tastes sweet
Yea
Dive into my ocean
Bring your love to me
Come on down
(Come down)
Come on down
Where the lovin' feels right
Door is always open
Open all night
(Ta ta)
Baby
Baby won't you come on down?
I can take you where you need to go
Take you there nice and slow
To a place where feelings run so deep
You just run to me
I can lead you to a special kiss
Fulfill your every wish
(There's a place I know)
There's a place I know just down the road
Where you should go and I'm sayin' (Come down)
Come on down
Where the water tastes sweet
Dive into my ocean
Bring your love to me
(Oh come on down)
Come down
(Oh yea yea)
Where the lovin' feels right
(It's gonna feel alright)

Door is always open
Open all night
Come down
(Come on down baby)
Baby won't you come on down?
(Ooh)I can take you to where the love flows like wine
(Yea yea)
I can show you my deepest secrets inside me
(Yea yea)
And you can take me just where I wanna be
So come here and get close
(Come here, get close)
And baby gimme what I need the mostCome come down
If you need a little tenderness
Can't find it nowhere else
If you want a little something sweet
You just come to me
If you're hungry for some love at night
I'll fix you up just right
There's a tender place just down the way
(Yea)
Where you can stay and I'm sayin'Come down
(Come on down, come on down)
Where the water tastes sweet
Dive into my ocean
Oh bring your love to me
Come on down, oh yeah
(Come down)
Where the lovin' feels right
(It's gonna feel alright)
Door is always open
Open all night
(You have it all night)
Come down
(Come on down yea)
Into my ocean baby
Come down
(Come on down)
(It's gonna be feel so right yea)
