

# Stickin' (feat. Masego & VanJess)

## Sinead Harnett

Mm-mm (Uh-uh) I can see the signs  
Something isn't right (Ain't right, hmm, ain't right, uh-uh)  
So before you even try to tell a lie, now  
'Member I know every side, each side of you (Each side of you), hmm Every step we take  
In every circle we go 'round  
Only leads us to another row But you know I'll still be here stickin' with you (Oh, oh woah)  
I'll still be here stickin' with you (Oh, oh)  
Whether you lift me up  
Or whether you're takin' me down  
Baby, I'll still be here stickin' with you, you (Ah, ah, yeah, yeah)  
Ready or not, we gonna talk  
You got me on lock, but you gotta stop  
I get tired of playing games (Games)  
Ooh, but you been drivin' me insane  
And it's been obvious  
The signs were apparent but I stayed true 'cause I love you  
Ain't no way that I'ma give up the fight  
But ain't no way that I'ma run a red light, yeah Every step we take  
In every circle we go 'round  
Only leads us to another row But you know I'll still be here stickin' with you (Oh, oh woah)  
I'll still be here stickin' with you (Oh, oh)  
Whether you lift me up  
Or whether you're takin' me down  
Baby, I'll still be here stickin' with you, you (Ah, ah, yeah, yeah)  
It's like, yes, I'm crazy, but I kinda gotta be  
You bring it outta me  
The louder me, the onomatopoeia, pop, boom  
Concrete jungle, where I be these days  
You swing my vine, when you feel need to leave LA (Like, like, like)  
Like, shawty, call me sticky tape  
I call her kissing Kate  
Oh, I'm the bad guy?  
Oh, I'm the animal?  
Hardly ever listenin', ever listenin'  
I drive you crazy  
You ride me manual But you know I'll still be here stickin' with you (Oh, oh woah)  
I'll still be here stickin' with you (Stickin' with you)  
Whether you lift me up  
Or whether you're takin' me down  
Baby, I'll still be here stickin' with you, you (I'll still be here stickin') Stickin' here with you  
I'll still be here stickin' with you
