

# The Eagle Flies Alone

## Arch Enemy

When I was born the seed was sown  
I will not obey, my life is my own  
Battle rules, which do enslave me  
Exposed lies that enrage me I don't believe in heaven  
I don't believe in hell  
Never joined the herd, could not adjust well  
Slave, master, it's not for me  
I chose my own path, set myself free I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone  
Reject the system  
That dictates the norm  
This world is full of lies and deceit I ask my own betrayal  
Cut so deep, suffered defeat  
Only to rise again I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone ALONE! I, I go my own way I swim against the stream  
Forever I will fight the powers that be  
I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone
