

Relax

Superorganism

Breeze is buzzing about
But school's out, join the crowd
We've got it all, the dilettante
Not ignorant, our honey hunt
You know we've got the best [?]itinerantSo just relax, oh just relax
Turn, on tune in, drop out if you can
And just relax, oh just relax
We're breathing in, breathing out
Oh oh oh oh oh oh oh
Stereo's getting too loud
Mustard seeds on the ground
Our ride must be still wet i bet
Too much honey will put you in debt
Stop giving yourself a coldsweat
