

Heart Attack

Enrique Iglesias

Loving you was easy
Thought you'd never leave me yeah, yeah
 Wrapped around my finger
See ya when I see you yeah, yeah Now I'm hearing around
 That you been running around
 I didn't think I'd miss you
 Now I'm feeling like a fool
Ooh, ooh It hit me like a heart attack
 When you finally left me girl
 I thought I'd never want you back
But I don't wanna live in a world without you
 I don't wanna live in a world without you
 I don't wanna live in a world without you
 Never really noticed
 All the little things you did, you did
 Never bought you roses
Always was around my friends, my friends And now I'm hearing around
 That you been running around
 I didn't think I'd miss you
 Now I'm feeling like a fool
Ooh, ooh It hit me like a heart attack
 When you finally left me girl
 I thought I'd never want you back
But I don't wanna live in a world without you
 I don't wanna live in a world without you
I don't wanna live in a world without you Never should've let you slip away
 Living in a world that's turned to grey
 Little did I know it hurts so bad
 Cause it hit me like a heart attack
 When you finally left me girl
 I thought I'd never want you back
But I don't wanna live in a world without you
 I don't wanna live in a world without you
I don't wanna live in a world without you, no oh
I don't wanna live in a world without you, no oh
 I don't wanna live in a world without you
 And now I'm hearing around
 That you been running around
 I didn't think I'd miss you
 Now I'm feeling like a fool
 Ooh ooh
