

# Bad Girls Don't Cry

## The Night Game

Blood red summer  
Neon nights  
Diamond gypsy  
And shadow light  
Feeling hungry  
Need a thrill  
Ice to cut  
And legs to kill Down for the weekend  
Got a bucket of love for the deep end  
You gotta store your secret for keeping  
And I want it, yes I want it, I want it  
A wolf for the moon's eye  
I found God, now die with the light down  
He said you gotta be getting out of this town  
Yeah you want it, you want it  
What am I supposed to do  
I'm dying to get to you  
Living in a bad world, no lie  
She told me bad girls don't cry  
Looking for something too  
I put my hands on you  
And tell me are you sad girl, oh why  
She told me bad girls don't cry Midnight dancer  
Take my hands  
Maybe I'm you  
Condiment, she said  
Everyday it's  
Halloween  
Little boys out  
Lipstick dreams  
I'm sprung like a first date  
With the cash in my hands, I'm a check mate  
Keep your heart in a vault in a brass case  
But I want it, yes I want it, I want it  
You move when the song plays  
Say you live in a world full of dark days  
And you dream of a life out of this cage  
And you're on it, you're on it What am I supposed to do  
I'm dying to get to you  
Living in a bad world, no lie  
She told me bad girls don't cry  
Looking for something too

I put my hands on you  
And tell me are you sad girl, oh why  
She told me bad girls don't cry What am I supposed to do  
I'm dying to get to you  
Living in a bad world, no lie, yeah  
She told me bad girls don't cry  
Looking for something too  
I put my hands on you  
And tell me are you sad girl, oh why  
Ooh, she told me bad girls don't cry  
She told me bad girls don't cry
