(Skate on these niggas)When I pull up they notice me
Come and talk to me like Jodeci
But don't you be too close to me
Them goons you see, let it go for me
I bring them things, I bring them things
I call the plug (hello?) he bring them things
Mucho bitches, I bring them tings
Looking so expensive, rings and things

I bring them things I bring them things I bring them things I bring them things

But don't you be too close to me
Them goons you see, let it go for me
I bring them things, I bring them things
I call the plug (hello?) he bring them things
Mucho bitches, I bring them tings

Looking so expensive, rings and things

I bring them things

I bring them things

I bring them things

I bring them things

Here's a little story about a kid from Morocco

Had to show Carlito I was Benny Blanco Check it out, ra-raindrop, offset

neck it out, ra-ramurop, ours

Fuck a plug, we the outlet

Child put me in a box, I'm in the box office

All the rocks made shawty blow my socks off

Coke boy white, Mac Miller, Reggie Miller

Shoot to kill her, Canaries, quarterback Steelers

White villa from crack dealing

Now Cîroc French Vanilla, garage like a dealer

I kill 'em softly, Lauryn Hill 'em

Get above 'em, crib Calabasas on the hill, I

Had 'em on a needle, 45 plate

Beatles wore revolvers on the red carpet

Alcatraz bars, crash cars

Ain't no future in fronting, my homie rip yo mask off

When I pull up they notice me

Come and talk to me like Jodeci

But don't you be too close to me

Them goons you see, let it go for me

I bring them things, I bring them things

I call the plug (hello?) he bring them things

Mucho bitches, I bring them tings

Looking so expensive, rings and things

I bring them things

I bring them things

I bring them things

I bring them things
