

# Freaking Me Out (feat. Alex Gaskarth)

## Simple Plan

What the hell's going on? Have you gone undercover?  
You were here; now you're not  
Been replaced by another  
'Cause it's still your face  
But there's something strange Not the one I remember  
Can you please explain?  
Did they wipe your brain? Is this gonna be forever?  
'Cause everything you say, everything you do  
Is freaking me out, freaking me out You know we used to be the same  
Who the hell are you?  
You're freaking me out, freaking me out  
And I swear I thought I knew you  
But all that was yesterday  
And now you turned it around What's that about?  
'Cause you're freaking me out, freaking me out  
Think you're real, but you're fake  
Think you're deep, but you're shallow  
You've become what you hate  
Now you're lost; just a shadow So who pulls your strings?  
'Cause it makes no sense That you act like you're better  
You can say these things To your so-called friends  
And they just might think you're clever  
But everything you say, everything you do  
Is freaking me out, freaking me out  
(You're freaking me out)  
You know we used to be the same  
Who the hell are you? You're freaking me out, freaking me out  
And I swear I thought I knew you  
But all that was yesterday And now you turned it around  
What's that about?  
'Cause you're freaking me out, freaking me out  
(Wake up, wake up, wake up) Snap out of it  
(Wake up, wake up, wake up) Snap out of it  
(Wake up, wake up) Wake up  
Everything you say, everything you do Is freaking me out, freaking me out  
(You're freaking me out)  
You know we used to be the same  
Who the hell are you?  
You're freaking me out, freaking me out  
Now everything you say, everything you do  
Is freaking me out, freaking me out  
(You're freaking me out)

So why you play your games?  
Who you trying to fool?  
You're freaking me out, freaking me out  
And I swear I thought I knew you  
But all that was yesterday  
And now you turned it around  
What's that about?  
'Cause you're freaking me out, freaking me out
