

# We Are the People

Ziggy Marley

We are the people  
We're not corporations  
We are the people  
We're not labels for your stock  
We are the people  
We're not crayons in a box  
We are the people  
We're not donkeys and elephants Taking over from machines  
Who you think you can trust  
For the ballads that we play  
Are like the bullets in a gun  
Wake up and open you heart  
Now don't be deceived  
Oh when you see yourself for who you are  
You'll be truly free  
We are the people  
Listen to our song  
We are the people  
Together we are strong  
We are the people  
Stronger than one race  
We are the people  
Stronger the one fate To divide us  
To define us  
Categorise us and neutralise us  
Like robots living in a dream  
Doing what they think they must  
Scenes in black and white  
Painted with the brush  
So you think they care  
It's a paper town  
With paper politicians  
Oh yes  
Hey you think you're safe  
In your hiding place  
Way up on the cloud Spread it all around the world  
Our voices must be heard  
With dignity and might  
Oh what a beautiful sight We are the people  
We're not corporations  
We are the people  
We're not labels for your stock

We are the people  
We're not crayons in a box  
We are the people  
We're not donkeys and elephants Taking over from machines  
Who you think you can trust  
For the ballads that we play  
Are like the bullets in a gun  
Wake up and open you heart  
Now don't be deceived  
Oh when you see yourself for who you are  
You'll be truly free We are the people  
Listen to our song  
We are the people  
Together we are strong  
We are the people  
Stronger than one race  
We are the people  
Stronger the one fate We are the people  
We're not corporations  
We are the people  
We're not labels for your stock  
We are the people  
We're not crayons in a box  
We are the people  
We're not donkeys and elephants
