

# Interweb

## Poppy

La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, laI forgot what my password is  
Maybe it's password one, two, three  
I feel the technology beat  
Deep inside of me, side of meThese days I don't have far to go  
Now that I've got you on my screen  
When you're down and you're alone  
I'll be there watching you  
I caught you in my interweb  
I caught you in my internet  
Well maybe I'm a spider  
Or maybe I'm a fisherman  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, laMy breathing code is b-binary  
And my launch is still processing  
I feel like I know everything  
Deep inside of me, side of meThese days I don't have far to go  
Now that I've got you on my screen  
When you're down and you're alone  
I'll be there watching you  
I caught you in my interweb  
I caught you in my internet  
Well maybe I'm a spider  
Or maybe I'm a fisherman  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, laAnd the world feels smaller  
When you tap my fingers  
So let's keep talking  
Tell me what day is it  
Can't turn it off yet, I'm wrapped up with it

So let's keep talking  
Tell me what day is it  
(Tell me what day is it) I caught you in my interweb (ah-ah-ah)  
I caught you in my internet (ah, ah, ah)  
Well maybe I'm a spider (ah, ah, ah)  
Or maybe I'm a fisherman (ah, ah, ah)  
I caught you in my interweb (ah, ah, ah)  
I caught you in my internet (ah, ah, ah)  
Well maybe I'm a spider (ah, ah, ah)  
Or maybe I'm a fisherman (ah, ah, ah)  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la
