

# Thank You

## Nathaniel Rateliff & The Night Sweats

Spend your years  
Spend your time  
With all these tears  
Not all were mine I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you, sweet baby, for getting me through  
...  
Can't hide your fears  
And I can't hide mine  
In spite of all this, dear  
I think we're fine  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you, pretty baby, for getting me through I was looking back there, Lord  
Could have been no one else  
I would have been so cold  
Laying here by myself  
Ever since you found me, yeah  
Never be anybody else  
Yeah, baby, yeah  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you  
I just want to thank you, sweet baby for getting me through
